EXPERIENCE

Software Developer

Goldenmuv Premium Consulting - June 2021 - November 2023

- Led the design, development, testing, deployment, documentation, and maintenance of various web-based applications in an agile environment, ensuring alignment with product requirements.
- Identified, resolved, and tested defects while responding to requirements and enhancements.
- Conducted research and presented recommendations for the adoption of new methodologies and technologies. If decided, led the implementation of approved recommendations.
- Developed and managed an internal financial tracking software which significantly improved the organization's productivity by 70%.

Backend Developer

FussionAce - June - October 2023

- Played a pivotal role in the development of a scalable backend service for an e-commerce platform.
- Actively engaged in bug fixing, performance optimization and system testing to maintain the stability and efficiency of the backend infrastructure.
- Collaborated with cross-functional teams, including front-end developers and UI/UX designers, to ensure a seamless integration of features to deliver exceptional user experiences.
- Took the ownership of tasks, collaborated closely with members of other teams, discussed implementation procedures with team members.
