EXPERIENCE

Software Developer
Goldenmuv Premium Consulting - June 2020 - Present

• Responsible for the design, development, testing, deployment, documentation and maintenance of multiple web-based applications in an agile environment meeting product requirements.
• Responsible for identifying, resolving, testing defects and responding to requirements and enhancements.
• Responsible for researching and presenting recommendations for the adoption of new methodologies and technologies; if decided, lead implementation of recommendation.
• Developed and managed an internal financial tracking software which helped improve the organization's productivity by 70%.

Python Backend Developer
FussionAce - June - October 2023

• Played a pivotal role in the development of a scalable backend system for an e-commerce platform using Django Rest Framework.
• Actively engaged in bug fixing, performance optimization and system testing to maintain the stability and efficiency of the backend infrastructure.
• Collaborated with cross-functional teams, including front-end developers and UI/UX designers, to ensure a seamless integration of features to deliver exceptional user experiences.
• Took the ownership of tasks, collaborated closely with members of other teams, discussed implementation procedures with team members.
